From **4th to 7th January 2025**, the cultural exchange project, an association between Bhavan's Rajaji Vidyashram, Chennai, and Bhavan's Munshi Vidyashram, Tripunithra, facilitated understanding of diverse cultures and student development. There were nine students from grades 8, 9 and 11 and two teachers from our school as part of the experience. It exposed the participants to varied cultural practices, learning processes, and adjusting to alternative environments. The students improved their people skills through interactions with new host families and peers, and it was therefore a meaningful and life-changing experience.

National Youth Day is celebrated in India on **12th January** every year to honour the birth anniversary of Swami Vivekananda, one of India's greatest spiritual leaders and youth icons. The Government of India declared this day as National Youth Day in 1984, and the first celebration took place in 1985. Swami Vivekananda believed that youth have the power to transform the nation. He emphasized the importance of education, self confidence, discipline, and service to society. His teachings continue to inspire young people to be strong, courageous, and dedicated to the progress of the country.

Thiruvalluvar Day falls on **15th January 2025**, in the state of Tamil Nadu, to commemorate great Tamil poet-philosopher Thiruvalluvar. He is credited with Thirukkural, the evergreen work of literature, which is a series of 1,330 couplets. It teaches ethics, governance and love. His philosophy places importance on morals, righteousness and wisdom that have inspired people across generations. The day is marked by cultural events, seminars and tributes to recognize his invaluable contribution to Tamil literature and philosophy. Statues of Thiruvalluvar, including the iconic one in Kanyakumari, are garlanded as a mark of respect, celebrating his enduring legacy and wisdom.

Uzhavar Thirunal, celebrated on **16th January 2025**, is a festival in Tamil Nadu dedicated to honoring farmers and their contributions to society. It is a part of the Pongal festival and coincides with Mattu Pongal, the day when cattle are worshipped for their role in agriculture. The festival highlights the importance of farming in Tamil culture and includes traditional rituals, feasts, and community celebrations. Farmers express gratitude for a good harvest and people come together to recognize their hard work, reinforcing the deep connection between agriculture and daily life in Tamil Nadu. **On 16th January 2025,** as part of the Student Exchange Program, few students from our school along with teachers had the incredible opportunity to visit Bhavan's Munshi Vidyashram, Thripunathara for a oneweek immersive program. This initiative was aimed to help students from Tamil Nadu to explore and experience the rich traditions, heritage and culture of Kerala.

On 18th January 2025, the students of class 12 passed the torch with immense pride onto the new student council members of class 11. The event was presided over by our Principal, Shri P.G.Subramanian. The eventful day commenced with Ansh Kakkar and Saibala Supriya, the Head Boy and Head Girl, reading the annual report for the year 2024-25, followed by the reports by the House Captains and a heartfelt farewell speech. Then the badge ceremony began. The new student body, displaying remarkable promise, were awarded their badges.

Finally the ceremony ended with the choir rendering a song. We wish the new student council a successful and productive term ahead filled with great achievements, teamwork and positive change.

Mermaid Exhibition

On **7th February 2025**, the students of UKG were taken to "The Mermaid Exhibition" at St. George's College Ground. The little ones explored the idea of water with colourful and enchanting mermaids. Apart from this, they also saw 10,000 varieties of fish and an underground tunnel surrounded by fish. They also explored the kids play area, 3D film area and the food stalls too.

It was a day filled with excitement and wonder as the children immersed themselves in a magical underwater world. The exhibition sparked their curiosity about marine life and provided a fun and engaging learning experience.

The English Department had organized various activities, for classes 1 to 12, year after year based on the works of Indian authors and poets. This year-the works of our revered and acclaimed Nobel Laureate Rabindranath Tagore. The students of class 11 presented 6 plays on 14th February 2025, at the Tag Auditorium.

The students of Class 11 presented six captivating plays at the Tag Auditorium, bringing the timeless stories of Rabindranath Tagore to life. The plays included "The King of Dark Chambers," "Gharo Bhaire," "The Ghost of a Leader," "The Funeral," "The Castaway," and "The Victory.". The students delivered passionate performances with expressive acting, keeping the audience engaged throughout the entire event. Each play truly captured the essence of Tagore's work, making it a heartfelt tribute to his literary brilliance.

Story of Trust (adapted)

Once upon a time, there lived a girl with her father. One day, she went to the airport to board a flight. After she boarded the flight, she felt excited. Suddenly, the plane started shaking a lot due to air turbulence. All the passengers in the plane started screaming except the girl who was playing with her doll.

When the plane became stable, all the passengers stared at that girl. The girl was still busy playing with her dall. An old lady from the crowd asked her how she was so calm when everyone in the plane was screaming. She smiled and looked into the eyes of that old lady. She told the old lady that it was her father who was flying the plane that day and she trusted that her father would do his best to save her and hence she remained calm. Everybody clapped for that girl and even her father came out of the cockpit to appreciate her.

The Straw, Coal and Pea

Once upon a time, there lived a poor woman. One day, she took a straw, a coal and some peas. Then she put all of them in a pot. Three of them escaped from the house. They went to the river. The straw said," I will be like a bridge and you walk on me". The coal walked on straw and both fell down and drowned in the river.

Pea got scared. Suddenly they heard a "boom" sound. A fairy appeared before the pea. The fairy saw the crying pea and asked what he wants. Pea told "I don't want to die". Fairy liked the innocence of pea and turned the pea into a prince. The Prince proposed the fairy. Then they both got married and lived happily everafter.

MISSION MARS

Over the years, NASA has sent five robotic vehicles called rovers to Mars. These rovers were named as Sojourner, Spirit, Opportunity, Curiosity and Perseverance.

Sojourner

Sojourner landed on Mars in 1997 in a location called Ares Vallis where it took many images. It drove a short distance and sent more than 550 images of the red planet. The rover used instruments to study about the rocks and dirt. Its lander also collected information on winds and other weather factors on Mars Do you know that Sojourner Rover was only about the size of a microwave?

Spirit & Opportunity

Spirit & Opportunity landed on January 3rd and 24th 2004 respectively in search of ancient water on the red planet. Designed to last just for 90 days this solar powered rover soldiered for about 6 years and 15 years before succumbing to the planet enveloping dust storm. This mission had confirmed the flow of water, existence of nutrients and previous discovery of the magnetic field that protected the planet from cosmic and solar radiation.

Do you know that Spirit & Opportunity were also called the Twin Sisters!

Curiosity

Curiosity was the most capable rover ever sent to Mars in the year 2011. It was sent to determine if the planet ever had proper conditions for microbial life to survive, Martian climate and geology. The rover is still operational on the planet.

Do you know that Curiosity Rover is the largest rover ever to land on another planet. It is about the size of a small SUV!

Perseverance

Perseverance landed on Mars on February 18, 2021, and studied a region on Mars called Jezero Crater. This rover will address high priority science goals for Mars exploration including potential for life on Mars. This rover shall also test the presence of oxygen on Martian atmosphere helping NASA to send human astronauts one day.

Do you know Perseverance will pack rocks and sediments for return to earth by a future mission by NASA!

MY EARTH MY MOTHER

My dear Earth! You are a mother at heart! The special thing I can't put apart! I will protect you. I won't hesitate. My Earth, My Mother, your resources I won't waste, I will do my part to keep you clean and Ensure you remain GREEN! Thank you for the gifts galore, It is our duty to give you more.

TRISHIKA KARTHIK 2D

A CAR DESIGNER

My dream, my ambition, my aim, my everything- To be a car designer! A car which helps people to solve any issue they might face during travelling. My car will be a very special car. It will have the features which every person wishes and cannot find in normal cars. It will be a robotic, but man controlled car. It will have wings to make it fly when someone needs to rush in emergency. A booster to speed up when needed. It can convert to a bike on one - switch mode. It will have an emergency button when someone is unable to drive. The car will come into robot mode and drive by itself to a nearby hospital or police station by getting into a live video call with our team to monitor the driver, especially for ladies' safety and aged people. This car will be designed for people to reach home on time. Happy Driving!
