B V BHAVAN'S RAJAJI VIDYASHRAM

Issue No 6

The Pride of the Nation

August 23rd marked one of India's greatest feats since achieving Independence - from claiming the right to live on our land as we wished to, to placing a symbol of the nation on the moon. Chandrayaan 3 landing on the moon was an event every Indian of almost every age gathered around a screen to watch which quickly sparked an overwhelming sense of pride and admiration. From Sriharikota to the realisation of what only used to be an ideal for the nation's future, India is on the moon.

We at the Bhavan's Patrikaa consider it a privilege to record/document our pride within our pages.

India has progressed in leaps and bounds over the past few years, but nothing has accelerated development like this attempt to explore the depths of the lunar south pole. ISRO has illustrated what exactly prudent & effective use of the scientific prowess of the country is meant to be (which has been reflected, specifically, in the numerous self made women who also made this possible). As the rover, Pragyan, helps our scientists walk over the moon, the world watches as we unlock new avenues of scientific discovery and exploration, shaping the future of lunar research.
